The Role

As a Motor Vehicle Fitter, your role at Vans 365 is to diagnose the faults and defects of any vehicles presented in the workshop.

As part of the diagnosis of faults and defects, you will be undertaking pre-delivery safety inspections and road tests to identify and repair the vehicle prior to it being presented for sale. Conducting servicing and repairs to a wide variety of vehicle makes and models is also a part of the role, whilst further diagnostic testing will need to be completed as and when required to identify faults that were not recognised upon physical inspection.

Other duties include:

- Testing batteries and other parts of the engine to find faults
- Checking tyres and exhausts for defects
- Replacing or repairing faulty parts
- Fitting accessories such as tow bars and roof racks
- Providing advice and consultation to sales and customers

It's not just diagnostics, inspections, repairs, servicing and paperwork that must be dealt with professionally and to the highest possible standard as part of the role, our technicians must have excellent customer service skills and offer customers expert advice regarding simple maintenance.

The Candidate

The ideal candidate for this role must:

- Hold an NVQ Level 3 in Mechanical Engineering or above
- Be able to work well alone or as part of a team
- Have excellent customer service and communication skills
- Have the practical and technical skills to fulfil the tasks detailed in 'The Role'
- Have a good level of fitness
- Be aware of the health and safety regulations associated with vehicle maintenance.

Other essential qualities you should be able to demonstrate include an ability to:

- Prioritise your own workload
- Work without close supervision, using your own initiative
- Work with accuracy, paying close attention to detail
- Work under pressure and meet deadlines
- Work flexibly as part of a team

- manage effective relationships with tact and diplomacy.
